

## **Scientific Games unveils *Kascada*<sup>™</sup>, the next generation of industry-leading gaming cabinets**

*Industry leader to launch first, truly international cabinet featuring addition to popular game series *Duō Fú Duō Cáí*<sup>®</sup>*

**LAS VEGAS – October 19, 2020** – Scientific Games Corporation (NASDAQ: SGMS) (“Scientific Games” or the “Company”) is continuing its legacy of developing industry-leading products with the unveiling of the new *Kascada* cabinet.

*Kascada*, which will initially launch in North America, is the Company’s first, truly international cabinet and will be available to gaming operators around the world. Built by an award-winning group of Research & Development team members located across the globe, *Kascada* is the next generation of the top-selling *TwinStar J43*<sup>®</sup> cabinet. *Kascada* offers a modernized version of the *J43*, boasting an ultra-high-definition 4K graphics display on a 43-inch, innovative double curved monitor and features an exciting new lighting package.

*Kascada* builds upon the gaming cabinet revolution Scientific Games began with the introduction of the *ALPHA Pro Wave*<sup>®</sup>, the first curved-screen portrait cabinet. That cabinet sent shockwaves through the industry, changed the look of casino floors and transformed the player-experience.

“*Kascada* is part of the evolution of the gaming floor,” said Matt Wilson, Executive Vice President and Gaming Group Chief Executive. “Technology in consumer electronics is rapidly evolving. We’re creating truly immersive experiences to match what players have become accustomed to in entertainment experiences off the casino floor.

“In developing both cabinets and games, we’re leveraging international teams to tap into and meet consumer expectations around the globe,” Wilson continued. “And, we’ve added top-tier executive talent with operator experience to our commercial team to ensure we keep the perspective of our operator-partners first and foremost. As we evolve our talent and better understand consumer demands and operator needs, our product lines continue to improve. This people plus product approach is a winning combination for us, and our partners.”

### **People Powering Progress**

A new, but familiar face to the team is Melissa Price, Senior Vice President of Global Gaming Operations. Price joined Scientific Games from Caesars Entertainment where she spent 13 years overseeing enterprise gaming operations for the corporation’s more than 40 casino-resorts worldwide. Her operator-first perspective will assist in the *Kascada* global launch.

Adding to this commercial expertise, is the prowess of the studio tasked with developing the first game to be featured on the cabinet. Renowned game-maker Qin You, whose studio is behind the popular themes *88 Fortunes*<sup>®</sup> and *Dancing Drums*<sup>®</sup>, has developed exciting new content for *Kascada*. Building upon her passion for mathematics and history, Qin’s team will unveil *Coin Combo*<sup>™</sup> with the launch of *Kascada*.

### **Proven Product Performance**

*Coin Combo* is the next chapter in the story of the internationally successful *Duō Fú Duō Cáí* games

series, which began nine years ago with the original *88 Fortunes* game that sparked a frenzy of Asian-style video slot games on casino floors across the industry.

Launching *Kascada* with a proven performer is a testament to Scientific Games' commitment to developing the solutions operators need now. *Coin Combo* is set to hit casino floors timed to the 2021 Lunar New Year celebration.

As an industry-leader, Scientific Games continues to evolve by leveraging proven performers and the expertise of its people to develop cutting-edge products that support operator-partners and move the industry forward.
