

Scientific Games To Explore The 2021 Trends That Matter Most For Operators At EMEA Summit + Virtual Experience

Company's virtual event to analyze hot topics and showcase the latest product developments

LAS VEGAS – March 9, 2021 – [Scientific Games Corporation](#) (NASDAQ: SGMS) (“Scientific Games” or the “Company”) is set to delve into the latest trends and developments that will shape the future of the casino and sports betting industry at its upcoming EMEA Summit + Virtual Experience.

The virtual event, which is exclusively for the Company’s customers, takes place between 17-18 March and will deliver insight, analysis and ideas for operators to navigate their way through today’s challenging marketplace and drive their recovery plans.

An extensive schedule of panel discussions over the two-day period will cover a wide range of subjects. A Game Designer Panel will share details of its upcoming slots, including *88 Fortunes*[®] - *Lucky Gong*[™], *Ultra Hot Mega Link*[®] and *Lobster Bay Kraken Unleashed*[™]. The Tables panel will specifically focus on key products that will increase profitability including the *Quartz*[®] Terminals and Table Progressives. The Systems panel will go through the innovation path which will continue to include new products that will optimize operations and create a better player experience.

An extensive schedule of panel discussions over the two-day period will share insights from Company thought leaders on games, systems and technology:

- *The Company’s game designers will share details of upcoming slot releases, including 88 Fortunes - Lucky Gong, Ultra Hot Mega Link and Lobster Bay Kraken Unleashed[™].*
- *A panel on table games will specifically focus on key products that will increase profitability, including the Quartz Terminals and Table Progressives.*
- *Technology experts from the Systems team will offer insight on innovations, which include new products that will optimize operations and create a better player experience.*
- *iGaming experts will share how the Company’s ‘open’ network and technology developments deliver new immersive iGaming experiences for players*
- *Sport Betting experts will provide insight into the technology solutions that power the industry’s biggest sportsbooks and sporting events across the globe.*

Delegates will have access to a virtual booth where they can experience 360-degree demos of all the latest products from Scientific Games’ ever-expanding offerings.

Matt Wilson, the CEO of Scientific Games’ Gaming business unit, said: “We’re excited to welcome all partners from across the EMEA region to the latest installment of our virtual summit series, which promises to offer an event experience like no other.

“In these difficult and uncertain times, it’s incredibly important to remain connected with one another and remain informed of the latest trends. We remain committed to helping our customers drive their recovery and with several new product developments to unveil and industry topics to analyze, we’re looking forward to the Summit and engaging with both new and existing customers.”

The virtual Summit is the latest example of Scientific Games utilizing digital platforms to connect with customers in new and innovative ways. Previous virtual events hosted by Scientific Games have

effectively sparked engaging discussions on relevant industry topics and resulted in new installations that support customers in operating safely and effectively during the pandemic.

Con Nikitas, National Gaming Manager at ALH Group, said: "Attending the SG Summit + Virtual Experience was a great way for me to hear about upcoming products and to engage with the product experts in real time on the live panel sessions. Overall, the experience was delivered in a highly professional way and I was impressed. I liked that I could see videos and also download product details."

Forward-Looking Statements

In this press release, Scientific Games makes "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by words such as "will," "may," and "should." These statements are based upon management's current expectations, assumptions and estimates and are not guarantees of timing, future results or performance. Therefore, you should not rely on any of these forward-looking statements as predictions of future events. Actual results may differ materially from those contemplated in these statements due to a variety of risks, uncertainties and other factors, including those factors described in our filings with the Securities and Exchange Commission (the "SEC"), including Scientific Games' current reports on Form 8-K, quarterly reports on Form 10-Q and its latest annual report on Form 10-K filed with the SEC on March 1, 2021 (including under the headings "Forward-Looking Statements" and "Risk Factors"). Forward-looking statements speak only as of the date they are made and, except for Scientific Games' ongoing obligations under the U.S. federal securities laws, Scientific Games undertakes no obligation to publicly update any forward-looking statements whether as a result of new information, future events or otherwise.
