

LIGHT & WONDER SHOWCASES NEW PRODUCTS AT AUSTRALASIAN GAMING EXPO 2022

LAS VEGAS – Aug. 8, 2022 – Leading cross-platform global game company [Light & Wonder, Inc.](http://www.lnw.com) (NASDAQ: LNW) (“Light & Wonder,” L&W” or the “Company”) will be unveiling impressive new products for the region at this year’s Australasian Gaming Expo (“AGE”) (9-11 Aug) at Darling Harbour in Sydney, Australia.

Matt Wilson, L&W’s Executive Vice President & Group Chief Executive, Gaming said “AGE is a great opportunity for the L&W team to meet face to face with our customers and tell them how much we value their partnership as we embark on an exciting time in our Company’s journey.”

Light & Wonder™ is focused on creating the games the world wants to play and the underlying technologies to power those games across electronic gaming machines, table games, electronic table games (“ETG”), online games, live-streaming games and social games--all backed by the ground breaking innovations in systems, hardware and shufflers.

Leading this impressive showcase is the *Kascada*™ cabinet line. The *Kascada* 43” portrait cabinet is complemented by the *Kascada* Dual Screen, together offering a diverse catalogue of game brands and feature mechanics, designed to deliver an unparalleled gaming experience.

Mr Wilson added “Going into AGE, customers are seeing the result of some bold decisions we made in 2020 when we invested heavily in our Studios and our hardware. This gave us a launchpad for success that has been steadily gaining momentum starting with *KRAKEN UNLEASHED*™, *FAT FORTUNES*™, *HUFF N’ MORE PUFF*™ and then *DRAGON UNLEASHED*™ that has hit with four new games. It’s an overnight success story that has been two years in the making. Of course our story doesn’t end there, I’m super excited to be showing *THUNDER DRUMS*™, *GOLD FISH FEEDING TIME*™, and of course *JIN JI BAO XI*™ which has been remastered for *Kascada*.”

L&W’s market leading ETG’s will feature the new six tab *VEGAS STAR® QUARTZ*™ that brings increased game combinations into play. The highly anticipated *Stadium Blackjack*™ will be able to feature alongside *RouletteX*™, Sic Bo, Baccarat and standard Roulette to give players a new world of electronic table games to engage with.

Across each of the product lines in the L&W Gaming Division there has been continual development to improve the delivery of games at the table. Products like *AToM*™ allows players to access additional funds right at the gaming position without cash handling while the *MDX*™ multi-deck can shuffle one to 10 decks of cards and eliminates edge sorting.
