

Scientific Games and Big Time Gaming Strengthen Partnership to Fuse World Leading Game Content with Megaways™ Mechanic

Las Vegas, May 22, 2019: Scientific Games Corporation (NASDAQ: SGMS) (“Scientific Games” or “the Company”) and Big Time Gaming (BTG) have partnered to combine the massively popular *Megaways™* mechanic with the Company’s growing portfolio of games content. Making full use of the mechanic, Scientific Games has launched *Medusa® Megaways*, a title that extends on their popular *Medusa* series of games and integrates *Megaways* to enhance the player experience.

Megaways is a random reel modifier system that sees any given spin produce a different number of symbols across the reels, allowing players to experience endless possible game scenarios with every spin. The feature fuels a next-level player experience with randomly shifting symbol sets that allow for virtually endless payline combinations. The dynamic feature keeps players engaged with a fresh twist on traditional slot game reel arrays.

Medusa Megaways launched on SG Digital’s OGS Network April 24 and has been among the Company’s top-performing games since release. The game offers five in-game bonus features, including an attractive Replay feature that gives players the choice to either replay Free Games or collect their initial prize. The Company will also release *Raging Rhino® Megaways* in June and *Rainbow Riches™ Megaways* in July, putting a new spin on two player-favorite slot themes.

Dylan Slaney, SVP Casino at SG Digital, said: “This deal is a great reflection of our truly open platform, Open Gaming System (OGS), and our long-standing relationship with Big Time Gaming. We are thrilled to license *Megaways™*-- making this feature available on *Medusa Megaways* and many more titles to come will fuel future success for SG Digital and BTG. This is a huge deal for both parties, and we are really excited to see how *Medusa Megaways* is received by casino managers and players alike.”

Nik Robinson, Big Time Gaming CEO, said: “We have a great relationship in place with Scientific Games’ Digital group, so licensing *Megaways* was a natural extension of our long-term plans to bring *Megaways* to more players than ever.”

Forward-Looking Statements

In this press release, Scientific Games makes "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by words such as "will," "may," and "should." These statements are based upon management's current expectations, assumptions and estimates and are not guarantees of timing, future results or performance. Therefore, you should not rely on any of these forward-looking statements as predictions of future events. Actual results may differ materially from those contemplated in these statements due to a variety of risks and uncertainties and other factors, including those factors described in our filings with the SEC, including the Company's current reports on Form 8-K, quarterly reports on Form 10-Q and its latest annual report on Form 10-K filed with the SEC on February 28, 2019 (including under the headings "Forward-Looking Statements" and "Risk Factors"). Forward-looking statements speak only as of the date they are made and, except for Scientific Games' ongoing obligations under the U.S. federal securities laws, Scientific Games undertakes no obligation to publicly update any forward-looking statements whether as a result of new information, future events or otherwise.
