

## **Solaire Resort & Casino is the First to Install Scientific Games' *Dualos™ X* Slot Cabinets in Asia**

**Las Vegas and Macau – October 7, 2019** – Scientific Games Corporation (NASDAQ:SGMS) (“Scientific Games” or the “Company”) announced today that Solaire Resort & Casino is the first integrated resort in Asia to place an order for *DualosX* gaming cabinets. *DualosX* is the latest innovative gaming cabinet from Scientific Games, launching with the player favorite linked progressive titles *Duo Fu Duo Cai® 5 Treasures®* and *Diamond Eternity®*. The cabinet was introduced at the Australian Hospitality and Gaming Expo (AHG) in April 2019 and at the Global Gaming Expo Asia (G2E Asia) in May 2019.

“We were very pleased to have received this order from the Philippines’ leading and Asia’s best regional integrated resort, Solaire Resort & Casino. Our newest cabinet, *DualosX*, is certainly our most remarkable yet and we are sure that this new installation will create added excitement on Solaire’s impressive and expansive gaming floor. At Scientific Games we work hard with our customers to deliver the best gaming experience their players are looking for,” said Ken Jolly, the Company’s Vice President and Managing Director for Asia.

The *DualosX* has the signature 27–27–27 look, with a 27” high definition LCD topper, enhancing the games’ presence on the floor and effectively promoting new game themes. The 27” high-definition high-brightness main monitor and top box monitors offer higher luminance and deliver more exciting gameplay.

*DualosX* features a faster processor with CPU4x and runs on Scientific Games’ operating system, ArgOS, for superior game play and player experience. Enhanced styling with redesigned belly panel, edge lighting and surface finishes give the *DualosX* a more contemporary feel and increased appeal among latest-generation gaming machines.

Additionally, the *DualosX* machines with *Duo Fu Duo Cai* linked progressives installed are powered by BEPS Express (Bally Express Progressive System) featuring the capability for encrypted 1024 bit jackpot display technology with new ArgOS operating system.

Chin Gan Lim, Solaire Resort & Casino’s VP for Slot Operations said, “Every Scientific Games linked progressive product that we have launched on our gaming floor has proven to deliver successful results through the years. We are very excited to be the first to install the most awaited *DualosX* platform in our property as well, as we are confident that this will propel the Solaire brand to be the most preferred, not just in Asia but globally.”
