

## **Scientific Games Off to Strong Start at G2E with Two Digital Awards**

*Scientific Games' OpenSports™ wins Digital Product of the Year at Global Gaming Awards; Open Gaming System and OpenPlatform™ System earn gold medal for "Best Interactive Product" from GGB Gaming & Technology Awards*

**LAS VEGAS – Oct. 15, 2019** – Scientific Games Corporation (NASDAQ: SGMS) (“Scientific Games” or the “Company”) is celebrating the beginning of the Global Gaming Expo with two strong award wins. The Company received the Digital Product of the Year prize at the Global Gaming Awards 2019 in Las Vegas for *OpenSports*, its end-to-end sports betting product suite, for the second consecutive year.

The Digital Product of the Year prize is awarded to the company with a product suite that has taken player engagement to the next level through its design and implementation. A judging panel comprising 100 leading industry executives chose the Company’s end-to-end, modular sports betting product, which can be mixed and matched to meet specific needs and includes its ground-breaking *OpenTrade™* Managed Trading Services, powered by Don Best Sports.

Over the last twelve months, Scientific Games has transformed its *OpenSports* offering across web, mobile and retail. Alongside a new digital user interface as part of its *OpenEngage™* module, the Company launched a wide range of new market-leading features such as *Match HQ™* – a scoreboards widget that displays real-time game statistics and in-play animations across a wide range of American and European sporting events.

Scientific Games was presented with the award at the Global Gaming Awards’ prestigious ceremony held at the Sands Expo Convention Center as part of G2E 2019.

Keith O’Loughlin, SVP of Sportsbook and Platforms at SG Digital, said: “Kicking off G2E with this global award is credit to our teams and the work we produce for our customers across the world. Every day we strive to find new ways to improve the user experience and the *OpenSports* solution embodies our player-first approach and our long-standing commitment to reliability and stability. We’re delighted that the judging panel recognized the hard work and we’re looking forward to showcasing the full product during G2E this year.”

In addition, Scientific Games received a gold medal in the “2019 Best Interactive Product” category at GGB Gaming & Technology Awards for its *Open Gaming System (OGS)* and *Open Platform System (OPS)*. Both technologies are now part of the recently announced *OpenGaming™* product suite, the end-to-end digital ecosystem for operators looking to provide a new wave of immersive gaming experiences for their players through one seamless integration.

These latest award triumphs further demonstrate the Company’s reputation for delivering next level betting and gaming experiences in a responsible way for players across the globe.

### **Forward-Looking Statements**

In this press release, Scientific Games makes "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by words such as "will," "may," and "should." These statements are based upon management's current expectations, assumptions and estimates and are not guarantees of timing, future results or performance. Therefore, you should not rely on any of these forward-looking statements as predictions of future events. Actual results may differ materially from those contemplated in these statements due to a variety of risks and uncertainties and other factors, including those factors described in our filings with the SEC, including the Company's current reports on Form 8-K, quarterly reports on Form 10-Q and its latest annual report on Form 10-K filed with the SEC on February 28, 2019 (including under the headings "Forward-Looking Statements" and "Risk Factors"). Forward-looking statements speak only as of the date they are made and, except for Scientific Games' ongoing obligations under the U.S. federal securities laws, Scientific Games undertakes no obligation to publicly update any forward-looking statements whether as a result of new information, future events or otherwise.
