

## **AG Trucano and Scientific Games Memorialize Landmark Systems Technology Agreement Covering Operations Across South Dakota and Nebraska**

**LAS VEGAS – June 1, 2021** – [Scientific Games Corporation](#) (NASDAQ: SGMS) (“Scientific Games” or the “Company”) announced an agreement with [AG Trucano](#) that covers the use of Scientific Games Systems technology across 14 properties in South Dakota and multiple race tracks where gaming operations will commence across the state of Nebraska.

AG Trucano will leverage Scientific Games [SDS<sup>®</sup> Slot Management System](#) across all of their Nebraska operations. Other Scientific Games Systems technology solutions being installed in Nebraska include [iVIEW 4](#) with HTML5 capabilities, [Web Content Management](#), [CMP<sup>®</sup>](#) player tracking, along with *Power Rewards* and *Power Promotions*.

AG Trucano will use [Bally Multiconnect \(BMC\)](#) to manage accounting, analysis, and asset management functions across all of their South Dakota operations. This will allow their team to have complete control and a single view of the entire gaming operation. The [Servizio](#) Mobile Service Solution will provide employees with critical information instantly, using a suite of intelligent, rule-driven applications. Both solutions will be used across all 14 properties in South Dakota.

“We went through a comprehensive evaluation process, encompassing multiple gaming systems providers, and chose Scientific Games to be our Systems technology partner based on careful consideration and extensive due diligence,” said Bart Hamm, President and Owner at Aces Full, Inc (AG Trucano). “With respect to opening new casinos in Nebraska with several thousand EGMs in a successful and seamless manner, along with replacing our legacy systems-stack in South Dakota, we felt pretty strongly after exhaustive analysis that no other gaming systems provider could deliver on our needs.”

*SDS* is Scientific Games market-leading, integrated slot-accounting system that continually monitors slot machines and other gaming devices, as well as player gaming activity property-wide. *CMP* is a player-tracking and customer relationship system that helps operators manage and evaluate their database of players.

*iVIEW 4* is an easy-to-use, next-generation player interface that displays dynamic marketing animations and video with instant response, through a state-of-the-art multi-touch display. *iVIEW 4* allows casino operators to showcase their loyalty club and facilitate better player experiences with rewards right at their device.

“Scientific Games Systems solutions are road-tested, scalable, and incredibly well architected to be versatile enough to facilitate large casino operations in Nebraska, and nimble enough to run high-performing operations in South Dakota for AG Trucano,” said Bob Parente, Executive Vice President and Chief Revenue Officer at Scientific Games. “It is a testament to the incredible hard work expended every day by the entire Systems team at Scientific Games, that we were able to demonstrate the value that our Systems solutions can bring to AG Trucano’s operations in Nebraska and South Dakota.”

### **Forward-Looking Statements**

In this press release, Scientific Games makes "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by words such as "will," "may," and "should." These statements are based upon management's current expectations, assumptions and estimates and are not guarantees of timing, future results or performance. Therefore, you should not rely on any of these forward-looking statements as predictions of future events. Actual results may differ materially from those contemplated in these statements due to a variety of risks, uncertainties and other factors, including those factors described in our filings with the Securities and Exchange Commission (the "SEC"), including Scientific Games' current reports on Form 8-K, quarterly reports on Form 10-Q and its latest annual report on Form 10-K filed with the SEC on March 1, 2021 (including under the headings "Forward-Looking Statements" and "Risk Factors"). Forward-looking statements speak only as of the date they are made and, except for Scientific Games' ongoing obligations under the U.S. federal securities laws, Scientific Games undertakes no obligation to publicly update any forward-looking statements whether as a result of new information, future events or otherwise.
