

## Scientific Games Unveils Next Evolution In Industry-Leading Gaming Cabinets, Elevates The Player Experience With *Mural*™

*Dramatic cabinet featuring curved display and 4K resolution to launch with popular game titles Willy Wonka™ – Dreamer of Dreams™ and 88 Fortunes® – Emperor's Coins™*

**LAS VEGAS – April 1, 2021** – Scientific Games Corporation (NASDAQ: SGMS) (“Scientific Games” or the “Company”) continues to elevate the player experience with the unveiling of the *Mural*™ cabinet, the most visually dramatic gaming cabinet in the Company’s range of industry-leading products.

The *Mural* cabinet captures the imagination with its stunning dual 55-inch, 4K resolution curved display, immersing the player in the game and creating an eye-catching attraction on the casino floor. Following the successful launch of *Kascada*, the next generation of the top-selling *TwinStar J43*® cabinet, the *Mural* cabinet’s massive display takes the evolution of Scientific Games’ cabinet building prowess a step further.

“Our mission is to create unparalleled player experiences,” said Matt Wilson, Executive Vice President and CEO, Gaming. “The *Mural* cabinet is a new form factor for us. Its name is a nod to not just the size of the display, but to the beauty of the imagery you see in the game.”

“The cabinet’s design required our teams to work collaboratively to get every element right,” Wilson continued. “Our cabinet design has evolved into a much more holistic process where we’re taking insights from players, inputs from our partners and working across our teams to ensure nothing is left to chance. The *Mural* cabinet is the evolution of the gaming floor and we could not be more excited to unveil it.”

The Company’s award-winning engineering team, with members working across offices in Chicago, Las Vegas, Reno and the United Kingdom, led the cabinet’s design with coordination from game design, commercial teams, field service and support teams. Incredibly, the *Mural* cabinet is the first one to be designed almost solely through virtual collaboration with a select few engineers in the Las Vegas office building the first prototypes in person.

“The ability of our teams to build such a beautiful, massive cabinet in this new digital, work from home environment is a testament to their skill. It shows how we have effectively leveraged our global workforce to bring together top talent from around the world to build our industry-leading products,” said Wilson.

In its quest to elevate the player experience, the *Mural* cabinet also features an embedded wireless charger for easy mobile phone charging. Both the main monitor and the cabinet’s iDeck are touchscreen enabled for easy player interaction. Adding to the *Mural* cabinet’s high-tech experience is the next-generation Salem™ processor which provides lightning-fast gameplay, smooth animation, and crystal-clear graphics.

And, while the *Mural* cabinet was designed specifically with the player in mind, Scientific Games' engineering team developed an innovative system for installation and service so that the *Mural* cabinet is both beautiful and functional for operators.

The *Mural* cabinet will launch with popular game titles *Willy Wonka™ – Dreamer of Dreams™* and *88 Fortunes® – Emperor's Coins™*. *Willy Wonka – Dreamer of Dreams* is the latest game in the hugely successful *Willy Wonka™* game series. Every mechanic in the game has been specifically designed to take full advantage of the *Mural* cabinet's 110 inch, 4K resolution display. Players will instantly see and understand the winning potential through recognizable Wonka elements and action-packed features.

*88 Fortunes – Emperor's Coins* is the latest in one of the most successful slot brands in gaming history. Offering a thrilling gaming experience, players will instantly recognize familiar features made even more spectacular by the *Mural* cabinet's display, including the iconic wealth pot that fills as the must-hit-by-major jackpot increases.

Launching the *Mural* cabinet with a proven performer is a testament to Scientific Games' commitment to developing the solutions operators need. As an industry-leader, Scientific Games continues to evolve by leveraging proven performers and the expertise of its people to develop cutting-edge products that support operators and move the industry forward.
