

Light & Wonder's *REEL CHOICE*™ Multi-Game Solution is Now Live in Germany

LAS VEGAS – July 31, 2026 – Light & Wonder, Inc. (ASX: LNW) (together with its subsidiaries, “Light & Wonder,” “L&W” or the “Company”) today announced that its innovative *REEL CHOICE* multi-game solution developed for the European market is now live in Germany at multiple properties. These installations mark a significant milestone in the game’s deployment.

Designed to meet the distinct needs of European gaming floors, the *REEL CHOICE* solution delivers a modular, market-specific platform that enables operators to curate tailored content bundles built around regional player preferences. The solution launched in Germany with the Emerald collection featuring a mix of iconic Light & Wonder franchises including *HUFF N' MORE PUFF*™ alongside strong regional performers such as the *BURN 'EM UP*™, *SUPER MEGA FRUITS*™ and *FRUIT FUN FRENZY*™ games.

“Bringing *REEL CHOICE* to Germany is a meaningful step forward in our EMEA strategy,” said Mark Howell, Managing Director, EMEA at Light & Wonder. “*REEL CHOICE* was built with European players and operators in mind from the ground up, and seeing it live on the floor is a testament to our team's commitment to delivering localized solutions that perform, and we look forward to expanding its footprint across the region.”

Operators can further enhance their *REEL CHOICE* configuration by layering two of Light & Wonder's most successful progressive families, *JIN JI BAO XI*™ and *LION LINK*™, on top of any bundle, driving deeper player engagement and incremental floor performance.

The *REEL CHOICE* platform made its global debut at ICE 2026 in Barcelona in January, where it was introduced as the Company's first multi-game solution designed specifically for European players. This deployment represents the first live installation of the platform in Germany, underscoring Light & Wonder's commitment to delivering localized content solutions backed by the strength of its global franchises.
