

Scientific Games Chosen By Second State Gaming For New Truck Stop Route In Pennsylvania

Scientific Games software, Bally® MultiConnect, to be deployed on 100 games in 20 locations

LAS VEGAS, March 11, 2019 – [Scientific Games Corporation](#) (NASDAQ: [SGMS](#)) ("Scientific Games" or the "Company") announced an agreement with [Second State Gaming, LLC](#) to install [Bally MultiConnect \(BMC\)](#) software at 20 truck stop locations throughout Pennsylvania. The new system will begin going live in Spring 2019, and will continue to be installed on 100 games at 20 locations based on gaming license approvals. Pennsylvania recently signed legislation allowing a major expansion of gambling throughout the state, to include truck stops and airports.

Bally MultiConnect provides video lottery terminal (VLT) management reporting tools for multi-site gaming operations. It also consolidates data from any number of gaming locations into one reporting system with the click of a button. *BMC* allows operators to assess gaming operations at any level within the organization, and benefit from the convenience of one permanently unified set of accounting reports.

"We were thoroughly impressed by Scientific Games' existing presence in the State of Pennsylvania and their commitment to their systems customers," said Jennifer Caruso, Vice President of Operations at Second State Gaming LLC. "We are excited to see how the *BMC* product will give us a competitive advantage in the new Pennsylvania truck stop VLT market."

This agreement with Second State Gaming, LLC is the first systems contract awarded and the first deployment of *BMC* in this new truck stop route market.

"We are proud of our long-standing gaming partnerships in the State of Pennsylvania, and we are very excited to be the first to enter this new market with our systems offering," said Bob Parente, SVP and Chief Revenue Officer at Scientific Games. "As the leader in gaming systems and route operations throughout North America, Scientific Games is best poised to support this emerging market, as well as other jurisdictions, with products that will enhance the bottom line. We look forward to working with Second State Gaming to effectively manage their gaming route operations."

Forward-Looking Statements

In this press release, Scientific Games makes "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by words such as "will," "may," and "should." These statements are based upon management's current expectations, assumptions and estimates and are not guarantees of timing, future results or performance. Therefore, you should not rely on any of these forward-looking statements as predictions of future events. Actual results may differ materially from those contemplated in these statements due to a variety of risks and uncertainties and other factors, including those factors described in our filings with the SEC, including the Company's current reports on Form 8-K, quarterly reports on Form 10-Q and its latest annual report on Form 10-K filed with the SEC on March 1, 2018 (including under the headings "Forward Looking Statements" and "Risk Factors"). Forward-looking statements speak only as of the date they are made and, except for Scientific Games' ongoing obligations under the U.S. federal securities laws, Scientific Games undertakes no obligation to publicly update any forward-looking statements whether as a result of new information, future events or otherwise.
